Dear Mr. Gray:

Re: Final Approval of Permit Amendment, Reclamation of Areas #1 & 2,
Marblehead Mountain Lime Facility, Material Energy Recovery & Research
Corporation (MERR), M/045/024, Tooele County, Utah

The Division has completed its review of your latest (January 7, 1992) response to our December 3, 1991 conditional approval of the above referenced permit amendment. On March 13, 1992, Division staff conducted an evaluation of the recent reclamation work completed at the Marblehead Mountain Lime Facility.

The reclamation work performed was very commendable and appeared to conform with the design specifications as reviewed and approved by the Division. We also inspected the supplemental fencing efforts at the existing Marblehead Quarry revegetation test plot site. The additional wire strands have been erected and were satisfactory.

We look forward to evaluating the results of the reseeding efforts at the plant site over the forthcoming growing seasons. Thank you for your cooperation, patience and exemplary efforts performed on this reclamation project. Please contact me if I can be of further assistance in this matter.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
Minerals Regulatory Program
